Professional Summary

Computer Science undergraduate at **SSN College of Engineering** (CGPA: **9.205/10**) and **SDE Intern at Barclays**. Experienced in building scalable full-stack applications using FastAPI, Next.js, React, PostgreSQL, MongoDB, Redis and Kafka. Strong competitive programmer (**LeetCode Guardian**, **ICPC Regionalist**) passionate about backend engineering and distributed systems.

Experience

SDE Intern, Barclays *June 2026 – July 2026*

- Developed a reusable Python SDK using **FastAPI** and **OpenTelemetry** to enable distributed tracing across enterprise microservices.
- Built APIs and middleware for automatic instrumentation and trace propagation, improving observability while reducing integration effort.

Education

SSN College of Engineering Chennai, India
B.E. Computer Science and Engineering **CGPA: 9.205/10** (2023–2027)

Periyar Matriculation Higher Secondary School Chennai , India
Higher Secondary (Class XII) **97.67%** (2023)

Projects

- **TinyLink** *React • FastAPI • PostgreSQL • Redis • Clerk*
  Built a scalable URL shortening platform with custom aliases, QR codes, expiration, analytics, and secure authentication. Implemented Redis caching and rate limiting to reduce redirect latency and database load.
- **Nexus Finance** *React • Express.js • MongoDB • Redis • Razorpay • Clerk*
  Built a personal finance management platform with budgeting, transaction tracking, and analytics dashboards. Integrated Redis caching, Razorpay payments, and secure authentication.
- **Food Delivery Management System** *Flutter • Flask • Oracle • Razorpay*
  Built a full-stack restaurant order management system with real-time order tracking and Razorpay payment integration. Implemented menu management, customer account management, and order processing features.
